# Miscellaneous Settings

The Misc. Settings page allows you to view and change a number of settings associated with your Business Group.

It includes the following tabs.

- Number Blocks
- External Calls
- Call Notifications
- Other Settings

## Viewing Number Block settings

The Number Blocks tab displays all of the telephone numbers which we have assigned to your business.

## Viewing External Call settings

The External Calls tab lets you view the settings that are in place for calls that are external to your business.

- External Calls – This can take one of the following values:
  - Not Permitted – Calls outside of your business are not permitted.
  - Unlimited – There is no explicit limit to the number of concurrent external calls you can have, but there may be a limit to either the number of Incoming or Outgoing Calls you can make.
  - Limited – There is a limit to the number of concurrent calls you can have to numbers outside of your business.
- Maximum number of external calls – If the value of External Calls is Limited, the value of this setting specifies how many concurrent external calls there may be at any time.
- Incoming Calls – This can take one of the following values:
  - Not Permitted – Inbound calls from outside of your business are not permitted.
  - Unlimited – There is no limit to the number of concurrent incoming external calls you can have, although you are still subject to any Maximum number of external calls.
  - Limited – There is a limit to the number of concurrent calls you can have from outside of your business.
- Maximum number of simultaneous incoming calls – If the value of Incoming Calls is Limited, the value of this setting specifies how many concurrent incoming external calls there may be at any time.
- Outgoing Calls – This can take one of the following values:
- Not Permitted – Outgoing calls to outside your business are not permitted.
- Unlimited – There is no limit to the number of concurrent outgoing external calls you can have, although you are still subject to any Maximum number of external calls.
- Limited – There is a limit to the number of concurrent calls you can have to numbers outside of your business.
- Maximum number of simultaneous outgoing calls – If the value of Outgoing Calls is Limited, the value of this setting specifies how many concurrent incoming external calls there may be at any time.
- Local carrier code – This is a code that identifies which carrier will be used for any local calls your business makes. It is sometimes called PIC2.
- Long distance carrier code – This is a code that identifies which carrier will be used for any long distance calls your business makes. It is sometimes called PIC1.
- International carrier code – This is a code that identifies which carrier will be used for any international calls your business makes. It is sometimes called PIC3.

## Viewing Other Settings

- The Other Settings tab lets you view settings for Restricted Subscriber Messaging, the Internal Operator Number, and internal extensions.
- Restricted Subscriber Messaging – This determines whether members of this Business Group can send messages only to other members of the same Business Group.
- Use Internal extensions – This determines whether or not CommPortal displays the Business Group extension number associated with a directory number where possible.
- Internal operator number – This determines the number used to access this Business Group's operator.
