

Viewing and Changing Your Security Settings

To view your security settings, select the Security section.

Music On Hold

The screenshot shows a web interface for 'Music On Hold' settings. At the top, there are three tabs: 'security' (highlighted in blue), 'mappings', and 'resources'. Below the tabs is a light blue box containing the text 'Admin password for telephone access (valid only for the current administrator)' followed by a text input field. At the bottom right of this box is a button labeled 'Apply'.

As well as accessing the Music On Hold system using CommPortal, you can also use your phone to access it. Using this page you can view and change the password you will need to enter to use the phone access. To change your password, follow these steps:

1. Enter the new password in the text box.
2. Click Apply.
