

Account Codes

The Account Codes screen lets you configure your account codes service. Exactly what is configurable within this section will depend on the permissions that your administrator has given you.

Account Codes

[Edit Personal Account Codes](#)[Apply](#)[Cancel](#)

Choose which types of phone numbers require a code before dialling.

Account Code Options

Personal Business Group

Call types requiring an account code

- | | |
|---|---|
| <input checked="" type="checkbox"/> International | <input checked="" type="checkbox"/> National |
| <input checked="" type="checkbox"/> Local | <input checked="" type="checkbox"/> Operator |
| <input checked="" type="checkbox"/> Premium Rate | <input checked="" type="checkbox"/> Directory |
| <input checked="" type="checkbox"/> Mobile | <input type="checkbox"/> Local Business Group |
| | <input type="checkbox"/> Other Business Group |
