

Account Codes

The Account Codes screen lets you configure your account codes service. Exactly what is configurable within this section will depend on the permissions that your administrator has given you.

Account Codes

Edit Personal Account Codes

Apply

Cancel

Choose which types of phone numbers require a code before dialling.

Account Code Options	Personal	Business Group
Call types requiring an account code	1111	Family
<input checked="" type="checkbox"/> International	<input checked="" type="checkbox"/> National	
<input checked="" type="checkbox"/> Local	<input checked="" type="checkbox"/> Operator	
<input checked="" type="checkbox"/> Premium Rate	<input checked="" type="checkbox"/> Directory	
<input checked="" type="checkbox"/> Mobile	<input type="checkbox"/> Local Business Group	
	<input type="checkbox"/> Other Business Group	
<input checked="" type="checkbox"/> Use validated account codes		
Account code length: <input type="text" value="4"/>		
Max incorrect attempts before account is blocked: <input type="text" value="1"/>		
<input type="button" value="Unblock Account Codes"/>
