Paging

Paging (also known as Intercom) is a feature which allows one phone user to press a key on their phone and for whatever they say to automatically come out of another phone's speaker. The user of that other phone doesn't have to answer their phone. It is often used in an executive/assistant pairing.

If you have a paging key on your phone, then to page the destination, follow these steps:

- Pick up your handset.
- Press the paging key.
- Speak into the phone. Your voice will automatically come out of the other phone.

To finish paging, hang up the phone or release the paging key.
